Band bio

OX from Germany deliver powerful, modern alternative rock – rooted in the sound of the early 2000s, enriched with influences from post-grunge and alternative metal. Catchy hooks, heavy riffs, and atmospheric choruses have grown into a unique and unmistakable sound.

OX was founded in 2015 by singer, guitarist, and songwriter Simon Ochs in Karlsruhe. The lineup is completed by drummer Max Siegmund, bassist Niklas Reinfandt, and guitarist Nadir Zee.

Since their formation, OX have established themselves as a professional live band, playing rousing club shows throughout Germany and touring Eastern Europe for several weeks. Numerous festival appearances, such as at “Seebühne rockt! 2.0” alongside Doro and Kissin' Dynamite, impressively demonstrate how confidently and energetically the band engages the audience on every stage.

With two studio albums and the EP State of Change, OX not only deliver the highest quality at their live shows, but also productions at an internationally competitive level.
The EP State of Change, released in 2022, has now been streamed over 600,000 times on Spotify. This is a clear sign that OX's music is gaining increasing attention and reaching new listeners.

The band is currently working on their third studio album, with the first singles scheduled for release in 2027. With new songs, fresh energy, and a focus on powerful live shows, OX is ready to continue their exciting journey.

Press reviews

TUNED UP

"...With their State of Change EP, they have bolstered their armory of songs and have certainly started a small revolution that may grow into a colossal one."

– **TunedUp**, 19.10.2022 **(to the articel)** –

FRONTSTAGE MAGAZINE

"OX are back and presenting us their new EP State Of Change, creating a sound that feels like a mixture of Godsmack, Staind, Seither, and Breaking Benjamin. The five-song EP sounds like many things, but certainly not like a German band, which is in fact behind State Of Change."

– **Frontstage Magazin**, 07.10.2022 **(to the articel)** –

MORECORE.DE

"...With "Real To You", the newcomers from southern Germany prove once again that their bold decision to shift genres has clearly paid off."

– **Morecore**, 03.06.2022 **(to the articel)** –
